# Villa life by Classic Collection

Whether you are a family looking for added privacy, a group of friends looking for extra space, or a couple in search of peace and quiet, we have a luxury villa holiday for you.

Villa holidays also make an excellent choice for a celebratory holiday with friends or a multi-generational holiday with children, parents and grandparents. Villas allow you the space to get together when you want to, but also give sufficient privacy when you wish to enjoy some time to yourself.

Villas which form part of a hotel resort offer guests privacy, flexibility, space and a place of their own as well as all the hotel's facilities. Take advantage of indulgent spa treatments, enticing culinary creations in the hotel restaurants and the range of sporting and cultural activities on offer. Villas which also benefit from private pools are perfect for those looking for added luxury and privacy.

A number of our hotel resorts feature villas and often at a more favourable price point than a private, standalone villa. These usually offer a communal space for socialising such as a central sitting room, large dining room or larger terraces, and sometimes the convenience of butler service, or a full kitchen or kitchenette, and clothes' washing facilities.

Below we highlight a selection of properties which are ideal for friends and families looking for the benefits of villa stays. For more details, please call our travel experts on 0330 088 1459.
